

**Capital Asset Advisory Services, Inc.** (“CAAS”) is registered with the Securities and Exchange Commission as an investment adviser. Brokerage and investment advisory services and fees differ, and it is important for retail investors to understand the differences. There are free and simple tools available to research firms and financial professionals at [Investor.gov/CRS](https://investor.gov/CRS), which also provides educational materials about broker-dealers, investments advisers, and investing.

What investment services and advice can you provide me?

CAAS offers investment advisory services and reporting to retail investors. We will develop an Investment Policy Statement (“IPS”) in consultation with you when you open an account with us. The IPS outlines your financial situation, investment goals, and objectives we use to select the most suitable model portfolio of investments. You can select to have your model portfolio managed either through the CAAS Wrap Program (the “Program”) or as an individual non-Program separate account. The Program is a bundled investment advisory service, including advisory and brokerage execution services for a single fee, plus an administrative fee. Wrap clients do not pay brokerage fees. CAAS continuously monitors all investments in accordance with your IPS. You can change your investment goals and objectives based on financial needs and impose reasonable restrictions and guidelines on your account at any time by contacting your financial advisor. CAAS also offers financial planning, consulting, retirement planning and other advisory and advisory related services. If you invest with us on a discretionary basis, CAAS will buy and sell investments in your account without requiring pre-approval on an ongoing basis. A non-discretionary account means that we must obtain your approval and you will make the ultimate decision regarding the purchase or sale of investments in your account. You will sign an investment management agreement giving us this authority. This agreement remains in place until you or CAAS terminates the relationship. We invest clients’ accounts primarily in exchange traded funds (“ETFs”), no-load mutual funds and insurance products offered through our affiliated insurance company.

**More detailed information about our advisory services, including minimum investment amounts, can be found in our [Form ADV Part 2A](#) (Items 4 and 7, or Items 4.A. and 7 of [Part 2A, Appendix 1](#), both of which are posted on our website ([wealthadvisory.group](https://wealthadvisory.group)) and on the Investment Adviser Public Disclosure website at <https://adviserinfo.sec.gov> by searching our firm CRD number which is 110929.**

Conversation Starter

*You are encouraged to ask a financial professional and start a conversation with the following questions:*

- *Given my financial situation, should I choose an investment advisory service? Why or why not?*
- *How will you choose which investments to recommend to me?*
- *What is your relevant experience, including licenses, education, and other qualifications? What do these qualifications mean?*

What Fees will I pay?

A. Program advisory fees are up to a maximum 2.25% and an administrator fee of up to .40% annually, depending on the nature of the services provided. Advisory fees are billed quarterly in advance based on the market value of securities in your custodian account, as determined by the custodian on the last day of the quarter. Fees are deducted directly from your custodial account, as authorized by you. Fees are reduced for clients with multiple managed accounts. Accounts are adjusted for inflows and outflows between billing periods; where new accounts are billed monthly in advanced and terminated clients receive a pro-rata refund of advisory fees. Account advisory fees are adjusted pro-rata for monthly inflows or outflows. Account minimums run from \$12,500 to \$1,000,000 depending on type of investment model selected. The amount of compensation received by CAAS, because of clients’ participation in the Program, may or may not be more than what CAAS would receive if clients paid separately for investment advice, brokerage and other services. Wrap fees include most transaction and custodian fees and are therefore higher than typical non-wrap asset-based advisory fees.

B. Non-Program advisory fees are up to a maximum of 2.25% of the value of investments in your custody account. The valuation and manner of how fees are assessed and collected are the same as above. CAAS employees also receive commission from the sale of recommended insurance products. All fees are exclusive of other fees and expenses clients will pay that are imposed by brokers and custodians for the security transactions.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amounts of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. **More detailed information about our fees and other costs can be found in our [Form ADV Part 2A](#), including Item 5 and Item 6 and Item 4 of [Part 2A, Appendix 1](#), a copy of both documents are available at ([wealthadvisory.group](https://wealthadvisory.group)) and on the Investment Adviser Public Disclosure website at <https://adviserinfo.sec.gov/firm/summary/110929>**

<p><b>Conversation Starter</b></p>	<p><i>You are encouraged to ask a financial professional and start a conversation with the following questions:</i></p> <ul style="list-style-type: none"> <li>• <i>Help me understand how these fees and costs might affect my investments.</i></li> <li>• <i>If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?</i></li> </ul>
<p><b>What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?</b></p>	<p>When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means:</p> <ul style="list-style-type: none"> <li>• The more assets there are in a client’s advisory account, the more a retail investor will pay in fees, and our firm may therefore have an incentive to encourage the retail investor to increase the assets in his or her account or to engage in riskier investment techniques to increase the account size.</li> <li>• When we recommend that clients roll over their 401(k) retirement accounts into an IRA under CAAS management, this represents a conflict of interest because we have an incentive to make this recommendation based on our interest in receiving an additional fee rather than the clients best interest.</li> <li>• When we sell affiliated insurance products to clients, our interest in receiving compensation from the sale of these products can conflict with the interest of clients seeking the best coverage at the lowest cost.</li> </ul> <p><b>More detailed information about our conflicts of interest can be found in our <a href="#">Form ADV Part 2A</a>, including Item 5, Item 10, Item 12 and Item 14, which is posted on our website and on the Investment Adviser Public Disclosure website <a href="https://adviserinfo.sec.gov/firm/summary/110929">https://adviserinfo.sec.gov/firm/summary/110929</a></b></p>
